

OM BRASS
INTERNATIONAL

Shaping your imagination into Brass

Info@ombrass.co.in

About Company

"OM Brass" is **ISO 9001 2015** & **IATF 16949** certified manufacturing company. located in Jamnagar India with CNC, VMC, TMC & CAME DRIVEN MACHINES (CDM) and SPM.

Providing solutions in Precision Turned/forged components in Copper alloy- Brass Material. We are into this industry as a Tier-2/ Tier-3 supplier for around 25 years, successfully catering to reputed OEMs of Automotive, Electrical, Fitting, Hydraulic and Pneumatic fittings, Fastener, Defense, Aerospace, Home décor & sanitary parts and Food processing industries. We are a trusted brand across the globe, and we have a dedicated and innovative team that passionately works to meet the demands of our global customers in USA and EUROPE.

Made in **INDIA**

India is the leading manufacturer of a variety of products in the world. All of our products are manufactured & made in India.

Mission & Vision

Mission

"To reach sales turnover to USD 40M in 2025 through innovation, expansion, new technology and achieve zero (tolerance) adverse effect on environment and zero defect on product."

Vision

Our vision is to establish new plant of 2,50,000 sq. feet area which will be included in-house extrusion plant, PLC based Machineries and convert most of the manufacturing process into automation. We will achieve our mission through continues R & D process by developing our engineering team as masters in field of precision turned/metal components. We will be trend setter in Metal Industry by archiving zero (tolerance) adverse effect on environment and zero defect on product.

Manufacturing Excellence

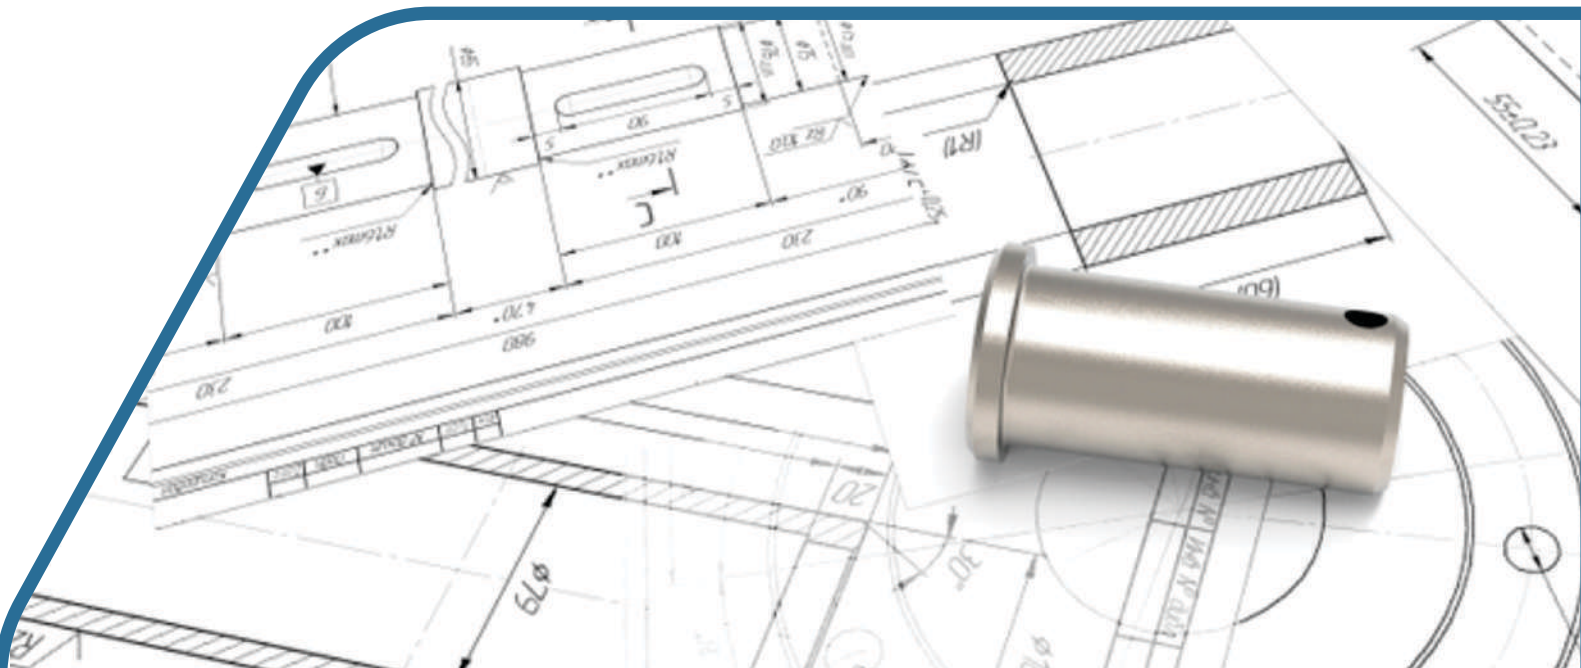

We have 3 decades of experience in manufacturing of metal components and our engineers are well experienced and expert to produce in very close tolerances.

We are using latest technology machines for getting the product by doing minimum operation which result in to reduce process time and cost of the product.

Design Engineering

We use autocad software for crafting & preparing 2D & 3D Drawings as per customer's specifications.

We also support our customer at new past Design & Development.

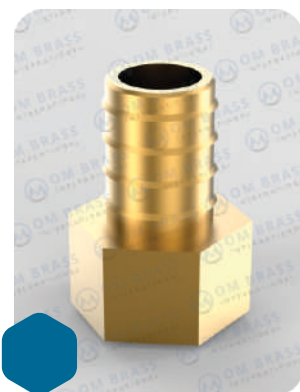

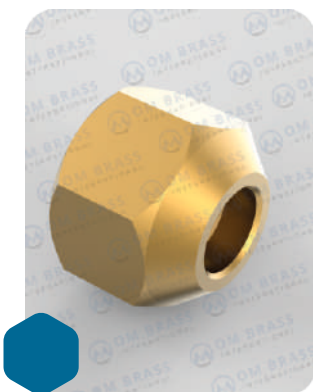

Turned & Machined

Components

Our long Standing experience in engineering and manufacturing of auto components has enhanced us to meet the global demand of automotive OEM's and their multi-tier suppliers.

competencies offer optimized manufacturing solution & technologies for your exiting products & new product development that include various static and dynamic R&D activities to establish and validate various automotive and mechanical parameter inclusive of : SPC, PFMEA, VDA, APQP, PPAP etc.

Forged & Machined Components

Forged and machined products where rugged and long-lasting components are made by utilising the raw potential of brass. We provide a wide range of forging solutions to meet the needs of many sectors and applications thanks to our proficiency in the forging process and dedication to quality. We guarantee that each piece of forged brass we produce reaches the highest standards of perfection because to our cutting-edge facilities, talented craftspeople, and stringent quality control procedures.

Casting & Machined Components

Casting and machined components where innovative design meets fine craftsmanship. We provide a variety of casting solutions that are tailored to different sectors and applications thanks to our years of experience and dedication to perfection. Our cutting-edge facilities, expert craftsmen, and quality control procedures the creation of premium brass castings that adhere to your exact requirements. We have the capacity to produce excellent outcomes whether you need small-scale industrial parts or large-scale industrial parts.

MATERIAL

- Copper Alloy : Free Cutting Brass-C3604 / CuZn39pb3 / CW614N / OT58 / CZ121 / 2.0401, CuZn38pb2, CuZn40pb2, C36000, CuZn37 etc.
- Bronze : C90300, C89835, 2.0598
- Stainless Steel : 303, 304, 316
- Aluminum : AL6061

Size

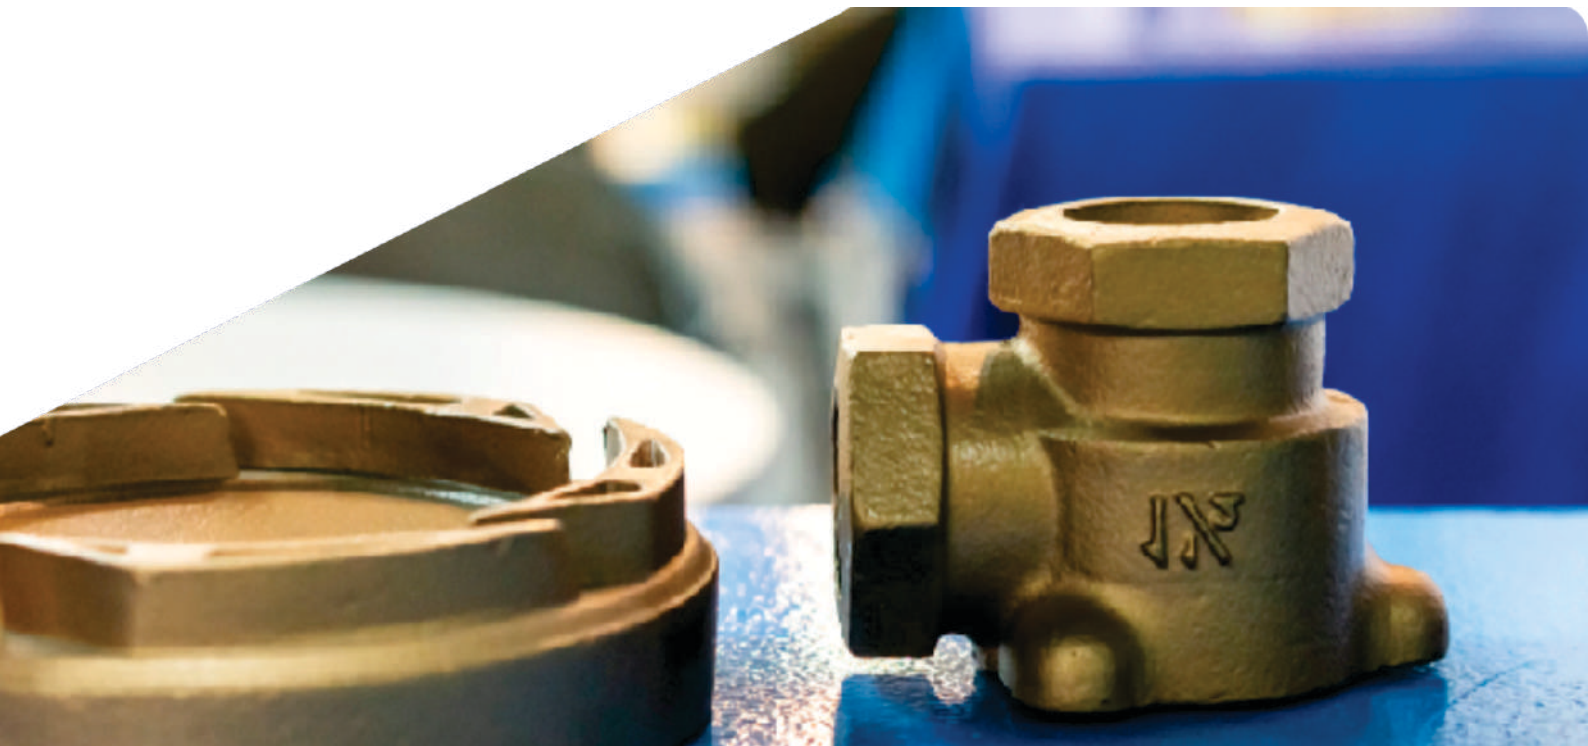

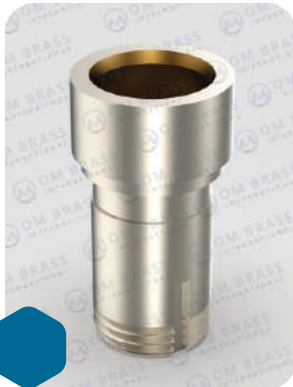

- Bar/rod : 3mm to 200 mm
- For forging parts : 25gm to 15 kg

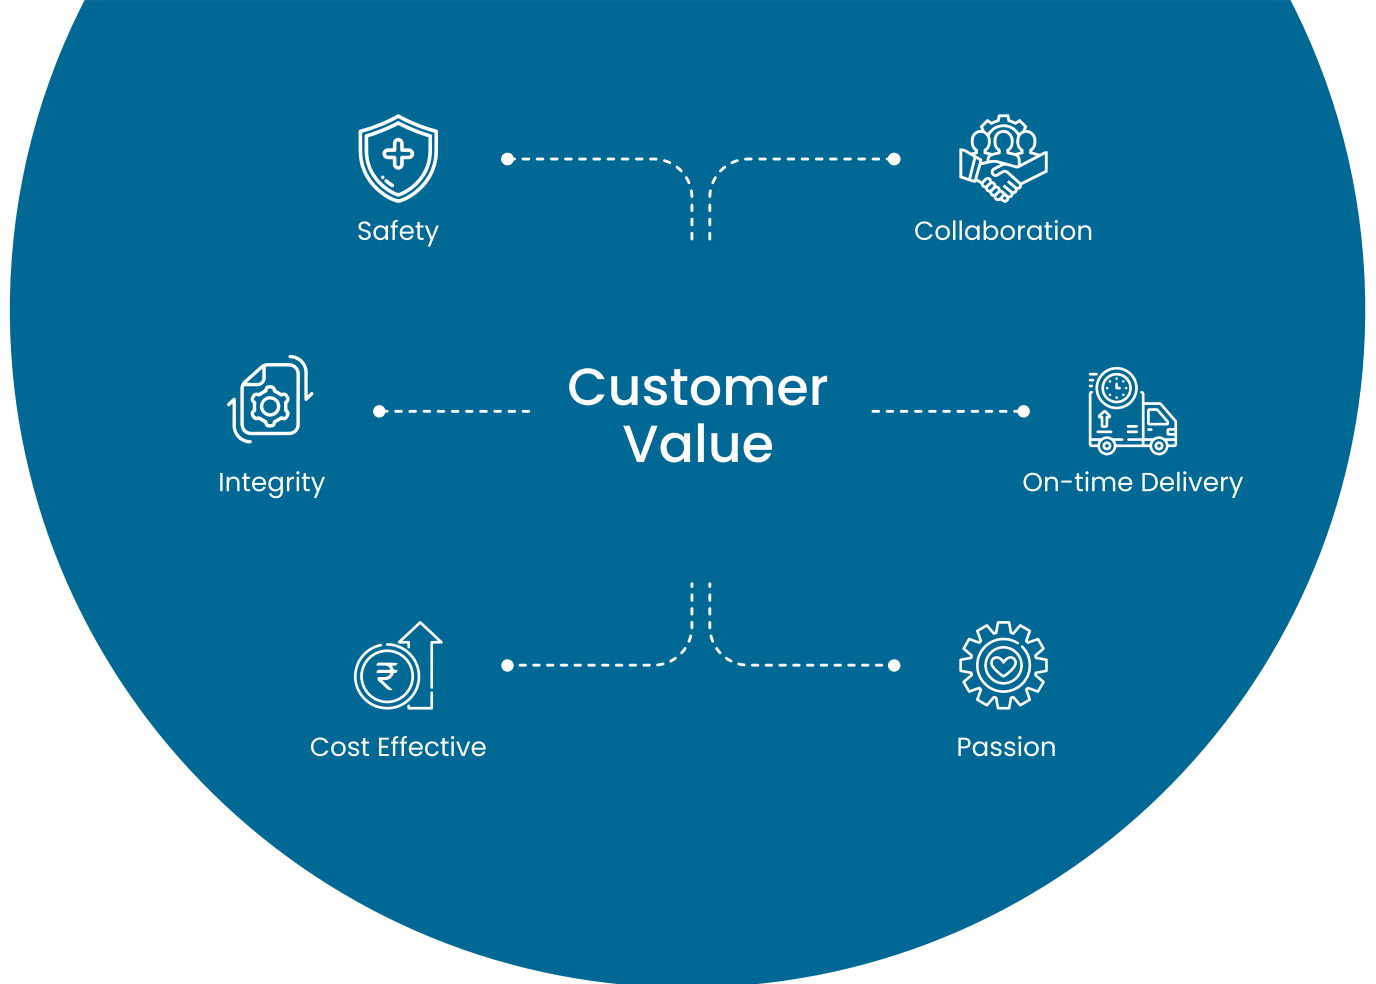

Threads

- BSP/BSPT/NPT/NPTF/UNS/UNF/BA/UNC/BSW/ISO Metric/Metric
- Tapper/NPSM/UNEF/BSF/BSPP

Surface Treatment

- Anodizing
- Electro-Nickel Plating and Electro less-Nickel Plating
- Copper Plating
- Zink Plating
- Tin Plating
- Silver Plating

- We provide direct services to our customers & ensure the quality products consistency, for new development, we provide full support to clients by effective involvement of our team members to ensures that we meet our customer expectations.
- We value our customers & understand the critical nature of the product. In case of quick deliveries we support them with shorter lead time.
- We also have Strategic logistic collaboration with UPS & DHL which reduces the delivery transit time.
- We support our valued customers with competitive pricing and transparent pricing passing benefits as and when achieved.

01

Automation

Automation is become basis requirements for the manufacturing sectors. Almost all industries are strived to convert their manufacturing process into automation to save cost and time with best quality.

Precision turned components plays precious role in automation process and products. We supply complex profile with closed tolerances. Our parts are being used in Sensors, Connectivity, lighting and indicators, power supplies, Robots etc.

Mahadev Turntech Pvt Ltd. 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc.

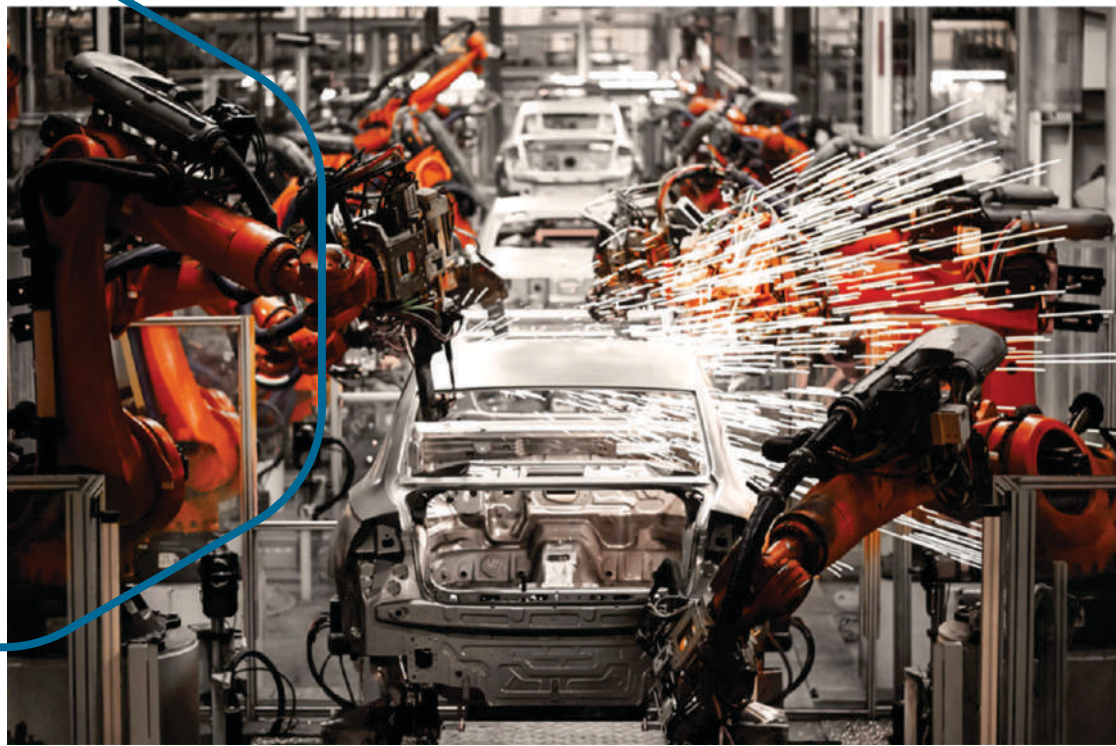

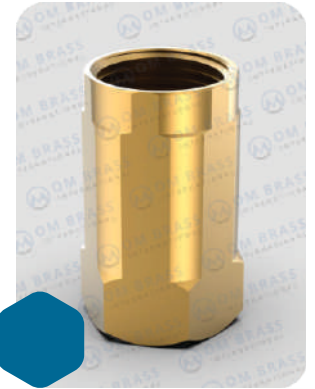

02

AUTOMOBILE

Our long-Standing experience in engineering and manufacturing of auto components has enhanced us to meet the global demand of automotive OEM's and their multi-tier suppliers.

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc.

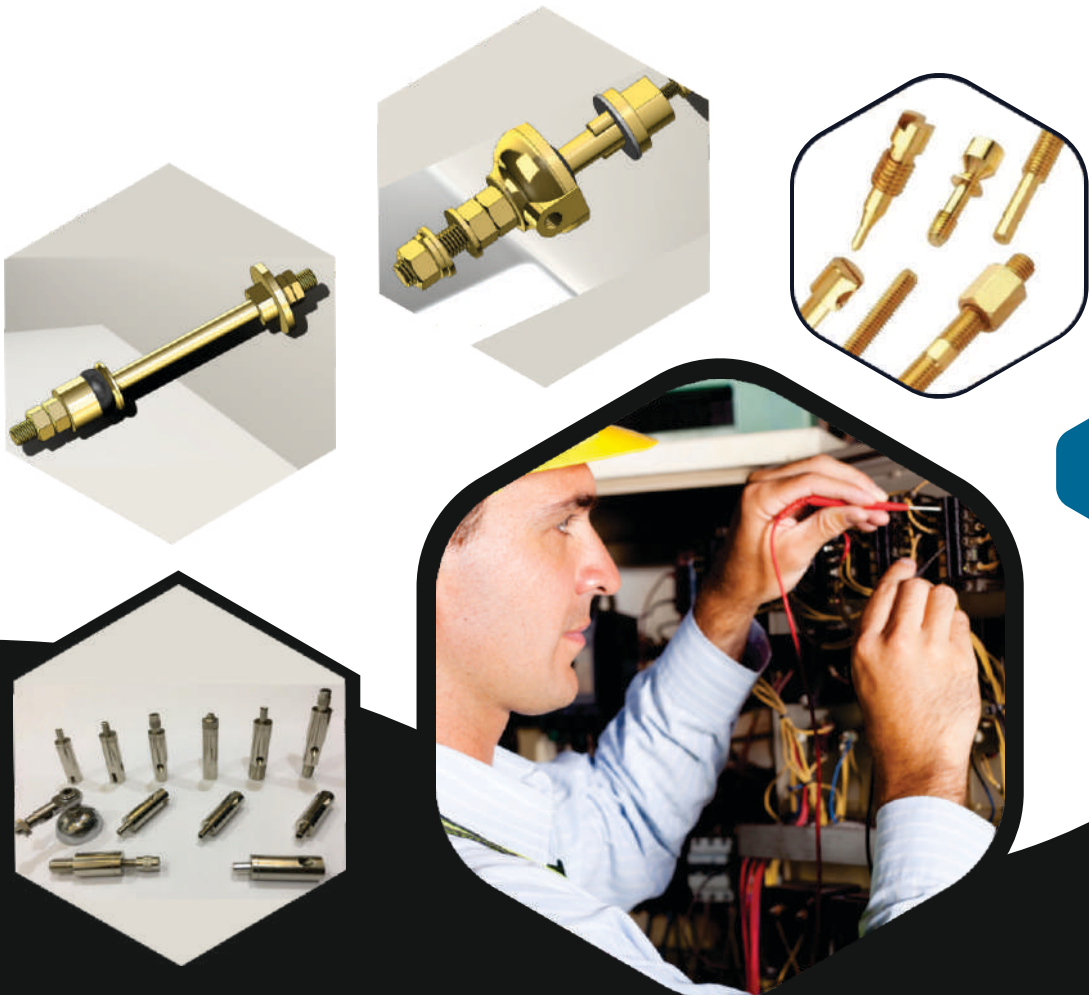

ELECTRIC AND ELECTRONICS

India's export of electric and electronics components is stood at \$ 28 Billion, and it is estimated to reach at \$ 100 Billion till 2023 as per Indian Electrical & Electronics Manufacturers' Association (IEEMA).

We have been supplying the electric and electronics brass components from last 2 decades, We see ourselves into growing drive of country and expecting to increase the sales by adding multiple products with innovation and adopting the latest technology. Our electric components are being used in Switches, Adapters, Switchgears, transformer etc.

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes. All parts of energy meter related to inside meter, meter terminal cover and meter terminal blocks.

SPC, PFMEA, VDA, APQP, PPAP etc.

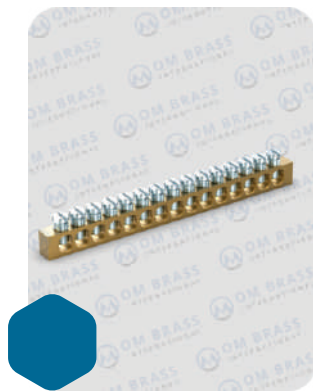

- **Contacts**

- **Glands**

- **Neutral Bar**

- **Other Electric Parts**

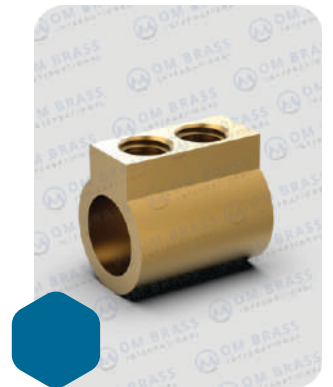

- Pins

- Stand off

- Terminal & Connectors

04

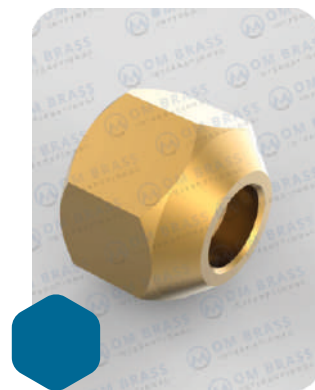

FITTINGS-HYDRAULIC AND PNEUMATIC

Among the basic elements of virtually every hydraulic system is a series of fittings flanges for connecting tube, pipe, and hose to pumps, valves, actuators, and other components.

We supply nuts, Hose fittings, o rings, nozzles, etc. with required thread types BSP/BSPT/NPT/NPTF/UNS/UNF/BA/UNC/BSW/ISOMetric/Metric Tapper/NPSM/UNEF/BSF/BSPP

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc.

05

FOOD PROCESSING AND BEVERAGES

The global food and beverages industry is made up of many segments, like cooking equipment, alcoholic drinks, energy drinks, soft drinks and many more. We have been supplying the Bronze & Brass components are being used in various beverages machines and equipment.

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc

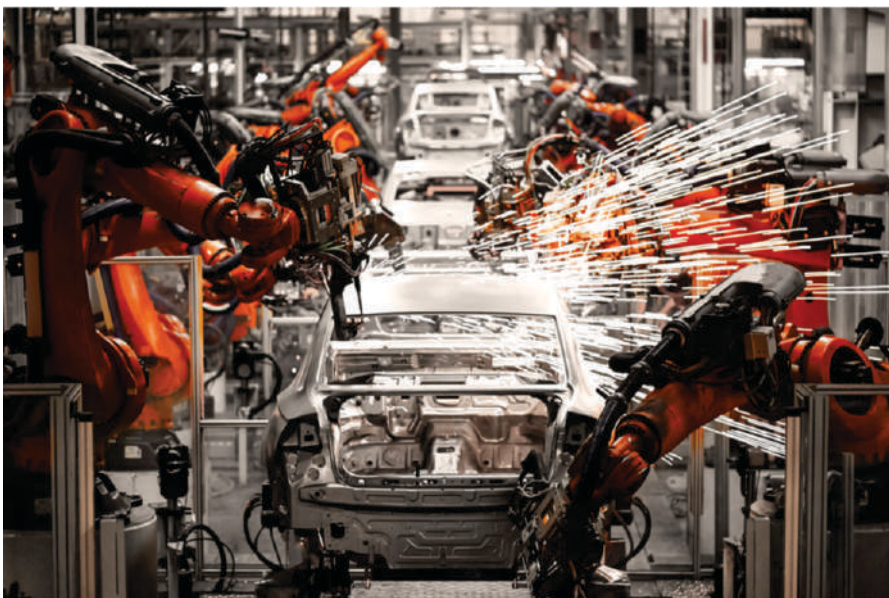

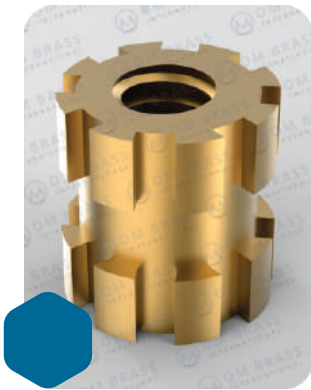

06

FASTENERS

We supply DIN Standards/ Drawing fasteners like, Molding inserts, Rivets, Tube supports, Nuts, Washers etc.

OM Brass 's engineering competencies offer optimized manufacturing solution & technologies for your existing products & new product development that include various static and dynamic activities to establish & validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc.

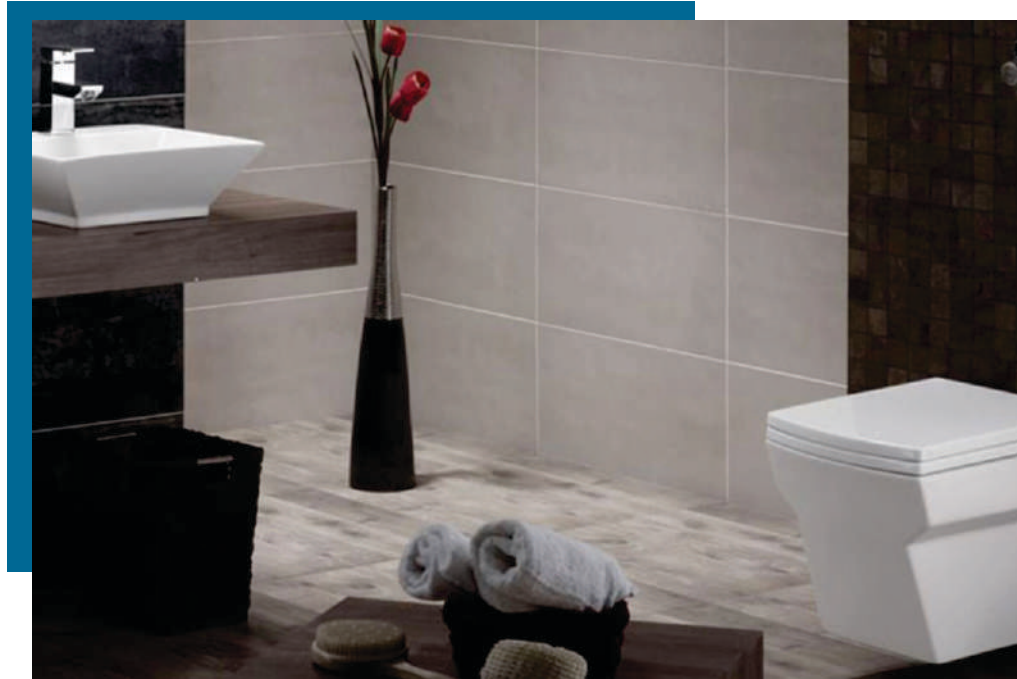

07

Sanitary

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

Pressure Test, Brust test, Platting thickness, Material Test

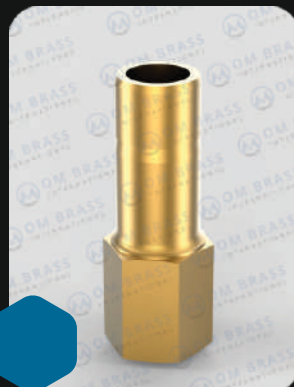

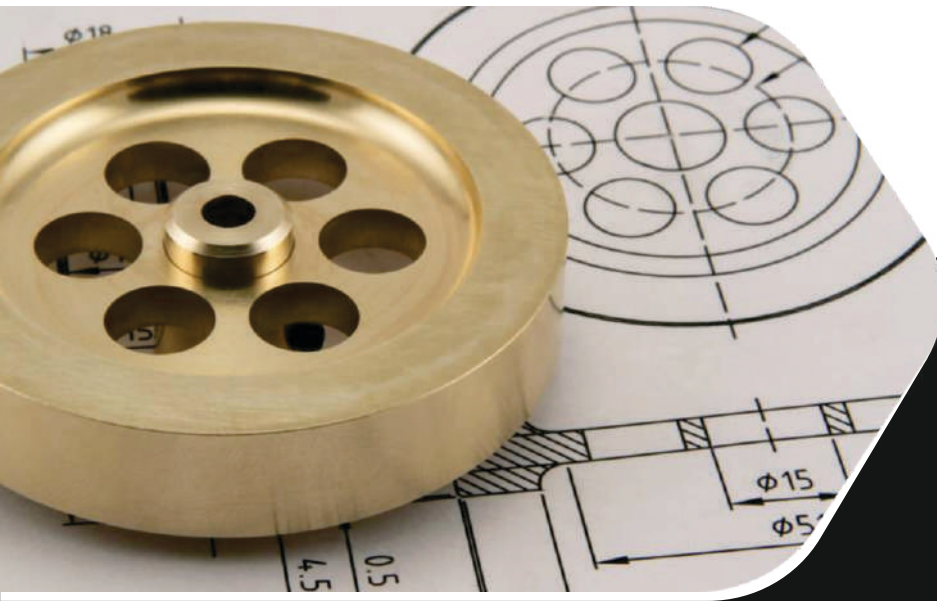

08

GENERAL ENGINEERING

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc.

Oil and Gas industries, we have been supplying drawing parts which includes Casting, Forging and machines components, our experience engineering team understand the industry's requirements like PMI test, NDT etc.

Om Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

SPC, PFMEA, VDA, APQP, PPAP etc.

10

HARDWARE AND HOME DECOR

OM Brass 's engineering competencies offer optimized manufacturing solution and technologies for your existing products and new product development that include various static and dynamic activities to establish and validation of product and processes.

OM Brass 's provide handles and door locks with various lucrative designs with 5-year warranty.

Hardware & Home Decore

S-601

Cabinet Handle

Material: Brass
Size : 96 MM, 160 MM,
224MM, 288MM
Finish : Antique Brass,
Matt SS, Graphite
Black, CP Rose Gold

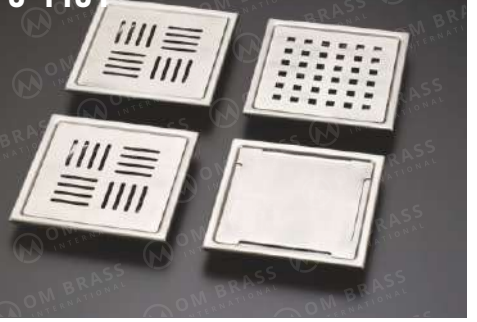

S-602

Cabinet Handle

Material: Brass
Size : 96 MM, 160 MM,
224MM, 288MM
Finish : Antique Brass,
Matt SS, Graphite
Black, CP Rose Gold

S-1101

Floor Grating

Material: SS
Size : 127 MM, 150 MM
Finish : CP & SS

S-9902

Knob

Material: Brass
Size : 1.25"
Finish : Antique Brass,
Matt SS, Graphite
Black, CP Rose Gold

S-1101

LockBody Cylinder

Material: Brass
Size : Lock Body- 45MM X
85MM, 60MM X 85MM
50MM Dead Lock 3
bullet 45 MM Body Latch
Finish : CP & SS

S-1001

Mortise Handle

Material: Brass
Finish : Antique Brass,
Matt SS, Graphite
Black, CP Rose Gold

S-1037

Mortise Plat

Material: Brass
 Size : 8" - 10 "
 Finish : Antique Brass,
 Matt SS, Graphite
 Black, Copppe
 Antique

S-1038

Mortise Plat

Material: Brass
 Size : 8" - 10 "
 Finish : Antique Brass,
 Matt SS, Graphite
 Black, Copppe
 Antique

S-09

Pull Handle

Material: Brass
 Size : (25 MM) 10" 12" 16"
 18" 24"
 Finish : AB, Matt SS, Graphite
 Black, Copper
 Antique

S-10

Pull Handle

Material: Brass
 Size : (20 MM) 8"
 (25 MM) 10" 12" 16"
 Finish : AB, Matt SS, Graphite
 Black, Copper
 Antique
